NO DATE ASSIGNED FOR THE 26TH RETURN

Division Is Now at the Embarkation Center at Lemans, Relieved of Further Military Duty.

Washington, D. C., Feb. 19.—The 26th (New England) National Guard division is now at the embarkation center at Lemans, France, and is relieved of further military duty, though no date has been assigned for its return. Adjutant General Harris yesterday informed Representative Treadway of Massachusetts.

IMPROMPTU MUSICIANS.

Among American Soldiers Used Primitive Instruments.

Paris, Feb. 19.—Fresh proof of the ingenuity and resourcefulness of the American soldier in France was given the other night at La Rochelle. An army quartet had been billed to play for the soldiers at the Young Men's Christian association but there. The train failed to come, after the manner of trains in France. John I. Anderson of Dallas, Tex., the Y. M. C. A. secretary at La Rochelle, near La Rochelle, explained the matter to the audience.

Immediately an impromptu jazz quartet was organized. One performer played on two pieces of sand paper, another on a piece of tin, the third with an automobile horn, and the fourth tried to make music with a leg of a chair.

With these instruments, the jazz band "played" the popular music of the United States, to the great amusement of the audience. Heated disputes as to what they were playing occupied large place on the evening's program. They were so popular, however, that their audience refused to allow them to stop, until the regular performers arrived, and even then they continued to play, to the accompaniment of a drum, a mandolin, a violin and a piano.

Into Peptiron—The Combination of Peppin, Nux, Iron, Celery.

This is what makes Peptiron of wonderful therapeutic value, and so successful after influenza, the grip and in blood and nerve troubles, anemia, paleness, nervous weakness and the exhausting worry and anxiety over the world war.

It is a real iron blood and nerve tonic, especially beneficial in the weakness following the influenza and grip, to worn-out, brain-fagged men, delicate women, school-tired girls and to fast-growing boys, invalids and convalescents, the aged and infirm. It actually puts iron, a natural strengthener, into the blood, and restores the wasted red corpuscles. Your druggist knows its great merit.—Adv.

PIMPLES ON FACE CUTICURA HEALS

Formed Blackheads, Scaled Over, Burned and Itched

"I had pimples on my face and they afterwards took the form of blackheads. They were hard, large and red, and they scaled over. They were in blotches and burned when I perspired, and they also itched. They caused disfigurement.

This trouble lasted about one year before I used Cuticura Soap and Ointment. In three weeks I got relief, and three cakes of Cuticura Soap and two boxes of Cuticura Ointment healed me." (Signed) Jos. Jurvitch, 14 Beatty St., New Britain, Conn., Aug. 14, 1918.

The Cuticura Toilet Trio, consisting of Soap, Ointment and Talcum, promotes skin purity, comfort and health when used for every-day toilet purposes. Sample Each Free by Mail. Address: "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c. Ointment 25c. Talcum 25c.

ESTHONIAN TROOPS WERE DEFEATED

Forced to Fall Back Before the Bolsheviki in the Region of Pskov Because of the Latter's Supremacy in Numbers.

London, Tuesday, Feb. 18.—Esthonian troops have been forced to fall back before the bolsheviki in the region of Pskov, according to an official statement issued last night by the Esthonian headquarters. The statement reads: "In the direction of Pskov, because of the enemy's supremacy our troops have been forced to retire to the line of the village of Videmka, Lerg, Sokolova, Podgortse, and Korkeloi. There is violent fighting in the direction of Volmar."

Bolsheviki forces on Saturday attacked the Esthonians on the line running from Narva on the Gulf of Finland, southward to Pskov and thence around the southern end of Lake Peipus, to Volmar, on the Aa river, northeast of Riga. It would appear that the retirement mentioned in the foregoing dispatch is in the center of the front under attack.

MEXICAN SOLDIERS DEFEATED AGAIN

Six of the Latter Were Killed While They Were Endeavoring to Reach the United States, It Is Thought.

Nogales, Ariz., Feb. 19.—A band of several hundred Yaqui Indians were defeated in a battle with Mexican federal soldiers Saturday near Idsborrego, Sonora, 40 miles south of here, according to word received here to-day. Six Yaquis were killed by the soldiers. The Indians broke up into three parties. Mexican officials here believe the Yaquis are endeavoring to reach the United States border in the hope of receiving ammunition and food.

SELLING A BOND BLOCKS PEACE.

Each Holder Who Drops His Liberty Loan Sets Up a New Obstacle to the Government.

Liberty bonds, the bonds of the United States which will be forever famous because of the way in which they won the war for us, are to-day most important in what they will do toward establishing peace.

They stand as a great monument of the support given by the people to the government in time of a crisis.

Everyone who shares in the building of this monument should do his best to keep it unimpaired, unmarred, the tower of strength to the nation. It is injured when a bondholder sells his Liberty bond for a slight or negative reason.

The government has kept faith on the bonds with the people. It was stated that there should be an opportunity to dispose of bonds if it was absolutely necessary for holders to get the money, and an open market on the stock exchange has been maintained for this purpose.

It was possible that the government might have followed the example of Canada and directed that the market should be closed, that bonds once bought must be kept until they were due.

There was no contract to supply a market, but the promise was implied in the offerings and the faith has been kept.

To sell a Liberty bond, except in an emergency, is not meeting the government squarely.

Each time a bond was sold it made it harder to finance the war. Each time a bond is sold now it sets up one more obstacle in meeting the obligations growing out of peace.

Each time a bond is sold now, except in urgency, its seller disregards the financial history of war bonds for three centuries. In all this time, with the coming of peace, they have surely, steadily, advanced, yielding a substantial premium to those who kept them and each holder has made substantial profits on his investment.

Mercury Lands Troops at Newport News.

Newport News, Va., Feb. 19.—The transport Mercury, with 3,000 officers and men, reached here yesterday after a stormy voyage from France. The ship brought home the 60th coast artillery corps complete; 54th ammunition train complete; 835th stevedore company; a detachment of battery E, 61st coast artillery, and a number of casuals.

The transports Kroomland and Pocahontas were expected to dock later in the day.

BEEFSTOCK PRICES FIRM.

Values Well Sustained at Brighton Market—Choice Lambs Stronger.

Brighton, Mass., Feb. 19.—Beef stock prices were well sustained yesterday at the Brighton stockyards, and little change was noted in other kind of stock.

Fancy beef cattle were quoted at 13@14c, with an occasional choice pair a fraction higher. Average tops sold at 12@13c, good cattle at 10@11c, medium cattle at 8@10c, and light cattle at 7@8c.

Fancy beef cows and heifers were rather higher, sales being noted at 11 1/2, 11 1/4, and 11 1/8c. These were extreme prices, the range for average tops being 9@10c, with good cows at 7@9c, and ordinary cows at 5@6c.

Canner cows continued dull with buyers indifferent. The top price for this grade was 4 1/2c, most offerings selling around 4c. Occasional sales of fancy beef bulls were noted at 10@11c, the range for average to fancy being 7 1/2@11c. Bologna and ordinary stock sold at 5@6c.

Small lots of fancy calves sold at 16@17c, bunch lots bringing 14@16c, fair lots 11@13c, and grassers and drinkers 7@10c. Choice lambs were a little firmer at 14@16c, with small offerings. Sheep sold at 8@10c.

Owing to continued government control of pork provisions prices of both live and dressed hogs were unchanged, live hogs selling at the Brighton market.

BIG EATERS GET KIDNEY TROUBLE

Take a Glass of Salts Before Breakfast if Your Back Hurts or Bladder Bothers You.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid, which the kidneys strive to filter out. They weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps or lead, your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

STIMULATE MINERS TO COMBAT BOLSHEVISM

Is the Remedy Proposed by James B. Neale Before the American Institute of Mining Engineers.

New York, Feb. 19.—Stimulation of miners to greater efficiency by arousing their ambition for better homes, food, clothing and education was proposed as a "counter-irritant" for bolshevism by James B. Neale, of Minersville, Pa., a mine operator, at a meeting to-day of the American Institute of Mining Engineers.

Asserting that the bolsheviki are trying to distribute wealth on the basis of might and that disaster can be the only result of their effort, Mr. Neale advised operators to arouse in their employees ambition to greater efficiency in labor and ideals, not only for their own good but for better results in mining operation.

"A man who needs \$30 a week to live in his accustomed manner," said he, "and who can earn \$5 per day, will work six days a week. If his earning power is increased to \$7.50 a day, he can earn the \$30 a week necessary by working only four days, so there will be a tendency on his part to decrease his working days from six to four. This is uneconomical for all parties. Stimulating in the man higher aims and ideals, which will require more money for their satisfying, will not only increase his desire to work, but will also tend to change his work into service."

"These aims and ideals," continued Mr. Neale, "will make him feel that his work is not merely dull toil, but that it is an honorable means of enabling him to gratify his higher ambitions. The war has paved the way for the work on the part of the operators, for during the past 18 months, as never before, the work of the American workman has been service in a great cause and, now that the thought of work being service is in their minds, every effort should be made to intensify the thought and to make it permanent. Surely war conditions cannot be a greater stimulant along this line than can peace conditions."

Mr. Neale urged the operators to turn their thoughts from material and mechanical efficiency to the problem of social, physical and moral betterment of their employees, as equally important. "Until now is equally distributed," he said, "there can be no permanent distribution of wealth."

CALL THE PACKERS DANGEROUS ELEMENT

Hoover Declared Six Months Ago That "Here Is Growing and Dangerous Domination of the Nation's Foodstuffs."

Washington, D. C., Feb. 19.—A confidential report made to President Wilson by Herbert C. Hoover six months ago on the big meat packers was made public yesterday by the food administration at the direction of the president "to establish the real position of Mr. Hoover and the food administration on the control of the Chicago packing industries."

In recent hearings before congressional committees witnesses for the livestock men charged collusion between Mr. Hoover and the five leading packers.

In the report, in response to a request from the president for his views on the recommendations of the federal trade commission, Mr. Hoover said he reaffirmed domination of the nation's foodstuffs, and approved some of the commission's proposals. He recommended constructive regulations rather than stretching temporary war powers of the government, and expressed the belief that the domination of the packers did not necessarily imply wrong doing on their part, but as the natural outgrowth of various factors which need correction.

Mr. Hoover accepted as economically sound the federal trade commission's recommendation regarding federal control of animal and refrigerator car service, and said stockyards should be "entirely disassociated from the control of the packers." He contended, however, that

AMERICANS GOOD ENTERTAINERS

Thought Welsh Girl Who Worked Among U. S. Soldiers.

Cardiff, Wales, Feb. 19.—Testimony to the qualities of some of the American troops in France is given by a girl member of the woman's auxiliary army corps, in a letter to her home folks here. She writes:

"We are stationed inside an American camp in a huge old French cavalry barracks. We are doing clerical work with hundreds and hundreds of Americans in the central records office. We deal with the whole American army records, and

excepting the cook, waitresses, etcetera, all we odd 400 girls are really the 'Waves' of the American expeditionary force.

"We love the work, we love the camp and the boys look after us well. They are splendid fellows. We have comfortable rooms, a recreation room and hockey, and are as happy as possible. And now we are getting up a grand revue called the 'Battle of Bourgas.' I am to be a French girl. The chorus is one of the best and the music truly American. I'm afraid my music over there when we come back won't have enough 'pep' in it. Honestly, the boys can play. Even those who are doing scavenger work in the camp can play the violin and piano."

Are You a Bolshevik?

Bolshevism is based upon violence, relies upon force, is deal to right or reason.

To force the bowels to move by taking castor oil, pills, salts, mineral waters, etc., is to outrage Nature and "bolshevik" the body. Because drugs act by producing irritation.

Castor oil, for instance, is so obnoxious that the bowels make frantic effort to get rid of it. Other medicines, from senna to salts, provoke action by causing the bowels to try desperately to expel them first.

With such remedies therefore the removal of bowel waste is secondary and wholly incidental. Hence, the result is not to cure constipation, but on the contrary, to make it worse, more obstinate, harder to overcome.

On the other hand, Nujol is not a drug, does not act like any drug, acts mechanically, not medicinally; persuades Nature instead of forcing her.

Nujol supplies necessary moisture to soften intestinal contents and facilitate easy, thorough evacuation at regular intervals. Nujol makes easier and more effective the action of intestinal muscles. Nujol absorbs poisonous material.

Nujol is free from any deleterious after effects, forms no bad habits, can be used at any age, under any conditions, and overcomes constipation because it works hand in hand with Nature—with her laws, not against them.

Self-poisoning due to constipation causes over 90% of human illness. Get a bottle of Nujol from your druggist today, and send coupon for free booklet—"Thirty Feet of Danger."

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
